

Laminated 2mm Solid Copper Sheet Plate for Commercial

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: jinshunlai
- Certification: IOS
- Model Number: 0.1mm-900mm
- Minimum Order Quantity: 1kg
- Price: contact us
- Delivery Time: 5days
- Payment Terms: L/C, T/T , Western Union,D/P
- Supply Ability: 90000ton

Product Specification

- Color: Red
- Conductivity: 100% IACS
- Corrosion Resistance: Excellent
- Density: 8.9g/cm3
- Elongation: 20%
- Hardness: Soft
- Length: 2000mm
- Material: Copper
- Melting Point: 1083
- Shape: Sheet
- Surface: Smooth
- Tensile Strength: 200MPa
- Thickness: 0.5mm
- Weight: 2.5kg
- Width: 1000mm

Product Description

Laminated 2mm Solid Copper Sheet Plate For Commercial

Product Description:

Copper Sheet Plate is an ideal material for a variety of industrial and commercial applications. It is made of superior-quality copper sheet laminating, copper sheet stamping, and other processes to ensure its durability and strength. With a width ranging from 1000mm to 3000mm, this product can be processed through cutting, bending, welding, and other processes to meet the needs of different customers. It is also packaged in standard export package to ensure safe delivery and arrive in perfect condition. Plus, it has obtained certifications from ISO 9001:2008, SGS, and other authorities, so you can rest assured of its quality. The surface of Copper Sheet Plate can be polished, bright, anodized, and other treatments, making it perfect for many applications.

Features:

Product Name: **Copper Sheet Plate**

Surface: Polished, Bright, Anodized, Etc.

Shape: Sheet Plate

Tolerance: $\pm 0.01\text{mm}$

Payment Term: T/T, L/C, Etc.

Thickness: 0.1mm-200mm

Copper Sheet Cladding

Copper Sheet Perforating

Copper Sheet Corrugating

Technical Parameters:

Attribute	Value
Material	Copper
Payment Term	T/T, L/C, Etc.
Thickness	0.1mm-200mm
Length	1000mm-6000mm
Certificate	ISO 9001:2008, SGS, Etc.
Processing	Cutting, Bending, Welding, Etc.
Width	1000mm-3000mm
Surface	Polished, Bright, Anodized, Etc.
Tolerance	$\pm 0.01\text{mm}$
Package	Standard Export Package
Corrugating	Yes
Anodizing	Yes
Bright	Yes
Cutting	Yes
Bending	Yes
Welding	Yes
Polishing	Yes

Applications:

Copper Sheet Plate and Its Numerous Applications

Copper sheet plates are made from an array of copper alloys, including C10100, C10200, C10300, C10400, C10500, C10700, C10800, C10910, C10920, C10930, C11000, C11300, C11400, C11500, C11600, C12000, C12200, C12300, C12500, C14200, C14420, C14500, C14510, C14520, C14530, C17200, C19200, C21000, C23000, C26000, C27000, C27400, C28000, C33000, C33200, C37000, C44300, C44400, C44500, C60800, C63020, C65500, C68700, C70400, C70620, C71000, C71500, C71520, C71640, and C72200, produced by Jiangsu Wuxi. Copper sheet plates are known for their high corrosion resistance and strength.

Copper sheet plates can be used for a wide variety of applications, including copper sheet rolling, copper sheet cladding, copper sheet perforating, and copper sheet anodizing. These copper sheet plates are suitable for both indoor and outdoor projects, as they provide excellent resistance to corrosion and wear. With its excellent thermal and electrical conductivity, copper sheet plates are an ideal choice for electrical projects.

The tolerance of copper sheet plates is $\pm 0.01\text{mm}$, and each piece is certified to meet ISO 9001:2008, SGS, and other quality standards. The copper sheet plates are securely packaged to ensure that they arrive to you in perfect condition. Depending on your needs, processing such as cutting, bending, welding, and other shaping can be done to provide the exact product you need.

Customization:

Are you looking for a reliable source of copper sheet plate? Look no further - We offer high-quality copper sheet plate with a wide variety of models that meet your requirements. From Copper C10100 to C71640, our copper sheet plate come in a variety of thicknesses ranging from 0.1mm to 200mm. Our copper sheet plate are certified to ISO 9001:2008 and SGS, and can be cut, bent, and welded to meet your exact specifications. We also offer copper sheet perforating, copper sheet stamping, and copper sheet cutting services with precise tolerances of ± 0.01 mm.

Support and Services:

Copper Sheet Plate Technical Support and Service

Provide technical guidance and advice on the selection of copper sheet plate products

Provide technical advice on the design and application of copper sheet plate products

Provide technical support for the installation and use of copper sheet plate products

Provide technical support and services for the maintenance and repair of copper sheet plate products

Provide technical training services for the use of copper sheet plate products

Packing and Shipping:

Copper sheet plate packaging and shipping usually includes the following steps:

The copper sheet plates are wrapped in a protective material such as bubble wrap, foam, or paper.

The wrapped copper sheet plates are placed in an appropriate sized cardboard box.

The box is sealed with tape.

The box is labeled with the contents, destination address, and shipping information.

The box is placed in a larger shipping container for protection.

The shipping container is labeled with destination address and shipping information.

The shipping container is sent via the appropriate shipping method.
