

Electricity Insulation Copper Foil Tape Brass Strip H62 C2740 C2800

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: Jinshunlai
- Certification: IOS
- Model Number: 0.1mm-900mm
- Minimum Order Quantity: 1kg
- Price: 5000usd
- Delivery Time: 5day
- Payment Terms: L/C, T/T , Western Union,D/P
- Supply Ability: 90000ton

Product Specification

- Adhesive: Acrylic
- Adhesive Strength: High
- Application: Electrical, Insulation, Shielding
- Thickness: 0.06mm
- Width: 50mm
- Color: Red Yellow
- Highlight: **C2740 Copper Foil Tape, Insulation Copper Foil Tape, C2740 copper insulation tape**

Product Description

Key attributes

Industry-specific attributes

Adhesive	Acrylic
Adhesive Side	Double Sided
Adhesive Type	Pressure Sensitive
Design Printing	No printing
Material	Copper Foil
Feature	Heat-Resistant
Use	MASKING

Other attributes

Place of Origin	shandong, China
Brand Name	jinshunlai
Model Number	CFT005
Color	Copper
Product name	Cooper Foil Tape
Width	Customers' Request
Length	25m or 50m
Usage	Electronic Industry Ect
Certificates	ROHS

Packaging & delivery

Package Type:	1 roll/poly bag, 36 rolls/carton, 72 rolls/carton, 96 rolls/carton, 980 cartons/20'ft container, it also can be customized by clients.
---------------	--

Supply Ability

Supply Ability	1000000 Square Meter/Square Meters per Month
----------------	--

Copper foil tape is divided into **single-sided adhesive and double-sided adhesive**. Single-sided plastic coated copper foil tape is divided into single-lead copper foil tape and double-guided copper foil tape, single-conductor copper foil tape refers to the plastic surface is not conductive, only the other side of the copper conductive. Double copper foil tape refers to the plastic surface conductive, and the other side of the copper itself is conductive, it is said that double-conductor that is double-sided conductive. There are two-sided plastic coated copper foil tape and other materials used to be processed into more expensive composite materials, double-sided plastic coated copper foil's surface is also divided into conductive and non-conductive. Customers can according to their own needs of the conductive to choose the product.
